## BRUICHLADDICH SHERRY SERIES, 17 YEAR OLD:

THE SECOND IN THE BRUICHLADDICH SHERRY SERIES. THIS TIME A COMPARISON OF CASKS THAT HAVE PREVIOUSLY HELD THE FLOR-INFLUENCED PALE FINO, AND IN DIRECT CONTRAST, OTHERS THAT HAVE AGED THE LUSH, UNCTUOUS, SWEET PEDRO XIMINEZ.

### 1992 Fino Sherry

*Fino sherry, made from the palomino grape, is the driest and palest of all the fortified wines from Jerez. Bodegas Rey Fernando de Castilla shares a similar premium quality philosophy as Bruichladdich. We are pleased to be able to use some of their floor butts in the making of this intriguing cuvée that can be compared and contrasted to its pair, the Bruichladdich 'Pedro Ximénez' bottling of the identically aged whisky matured in sherry casks at the opposite end of the register of sweetness and colour.*

### 1992 Pedro Ximénez

*Pedro Ximénez (PX for short) is an ancient white grape of Moorish origin grown in southern regions of Spain which produces an intensely sweet, dark, raisiny sherry. Bodegas Rey Fernando de Castilla shares a similar premium quality philosophy as Bruichladdich so we are pleased to be able to use some of their floor butts in the making of this intriguing cuvée. It can be compared and contrasted to its pair, the Bruichladdich 'Fino cask' bottling of the identically aged whisky matured in sherry casks at the opposite end of the register of sweetness and colour.*
